**Topical Pain Relief &
Anti Inflammatory Cream**

Fisiocrem™ SOLUGEL is a topical solution containing natural herbal active ingredients which are traditionally used in Herbal Medicine to help relieve pain and inflammation in muscles and joints, or pain caused by sprains, strains, bumps and bruises.

Key Ingredients

10.5% Arnica Montana

Arnica is probably one of the best-known herbs worldwide for its use in natural medicine. Arnica is traditionally used in Herbal medicine to help relieve pain and/or inflammation in muscles and joints, sprains, bruises and muscular aches and pains

2.5% Hypericum Perforatum

Commonly known as St John's Wort, Hypericum has a long history for its use in soothing damaged and irritated nerves commonly found in low back pain, strains and sprains.

2.5% Calendula Officinalis

Commonly known as Marigold, it plays a supportive role to Arnica as a topical anti-inflammatory.

2.5% Menthol

Provides instant cooling relief to soothe muscle and joint pain.

1% Melaleuca Oil

Australian Tea tree oil, is well known for its analgesic, anti-inflammatory and anti-microbial effects.

From Crop to Creme

Fisiocrem™ SOLUGEL contains high levels of active plant extracts. These are not homeopathic dilutions. They are concentrated, pure herb extracts derived from plants that are grown and harvested to specific requirements especially for **Fisiocrem™ SOLUGEL**

How will Fisiocrem help me

- Acute and Chronic Pain
- Rheumatoid Conditions and Arthritis
- Tendon and Ligaments – Sports Injuries
- Neck, Shoulder and Back Pain
- Leg and Joint Pain
- Sprains and Bruise
- Cramps, Stiffness and Muscle Pain

Healthcare Professionals

Physicians, chiropractors, physiotherapists and other clinicians trust **Fisiocrem™** to relieve pain for acute and chronic conditions

Indications

Fisiocrem™ SOLUGEL is the ideal solution for the temporary relief of muscular aches and pains and uses natural active ingredients to provide pain relief for common everyday life and sports injuries.

How to Use

Apply **Fisiocrem™ SOLUGEL** directly onto the skin by gently rubbing the solution on to the affected area. A liberal amount (approx. 1/2 - 1 tsp.) should be applied to the affected area 3-4 times a day, or as often as required

Always read the label and use only as directed, if symptoms persist.

Topical Pain Relief & Anti Inflammatory Cream
