Our History:

We are an interdisciplinary team of engineers, physicians and scientists who are dedicated to developing innovative balance assessment solutions for the rehab market. Our Star Balance System makes it simple for you to include evidence-based training and rehabilitation in your assessments of patient balance.

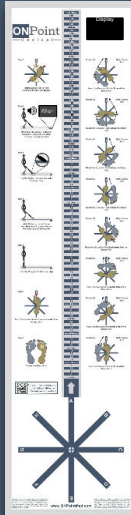

Our Goal:

At ONPoint Medical, we aim to provide comprehensive and innovative solutions for balance assessment to help simplify evidence-based training and rehabilitation.

Star Balance System:

Star Balance Assessment Board

- Designed to streamline clinical use of the Star Excursion Balance Test
- Add a quantitative and objective assessment to your practice
- Remove the fatigue of manual assessment
- Electronic sensor allows you to focus on your patient's posture rather than distance measurement and plot results online

Star Balance Training Mat

- Take balance training home or on-the-go
- Lightweight and comfortable
- Patients can practice their dynamic balance between rehabilitation sessions
- Track improvement and share results online
